Soaring to Excellence

Our logo is inspired by 'Mother Teresa' the patron saint of missionaries who is considered as one of the greatest humanitarians of the 20th century. Through her kindness, generosity and unfailing commitment towards her student's education, she sought to lead them. Inscription of open book in our logo indicates the knowledge one gets from the book and raised hands shows the urge to attain knowledge through education. The mark line “सर्वे पठन्तु सर्वे अग्रेयान्तु” in Devanagari script scroll under the school shield means- Everybody has Right to Education. This is one of the eminent fundamental rights granted by the constitution of our country. It says everyone should embrace education. If you need to stay afloat in today's society, you need to be educated because education is sort of paramount to future. Knowledge comes through education. Knowledge is power. It empowers and proves to be most essential survival tool for being resourceful. It's Your Passport to the World

# ABOUT OUR SCHOOL

Our campus boasts of peaceful and natural ambience free from pollution like ancient Gurukuls. It is surrounded by the ever greenery and scenic beauty aloof from the din and bustle of the city. The location of the school besides natural beauties provides desired educational environment. It has adequate land to provide spacious academic building area and playground. To grow in a safe and intellectually-stimulating environment the campus also provide open space and lush greenery for the children to move around and learn through stimulated activities under supervision of a well-trained and experienced staff. The classroom currently consists of 1 mother teacher along with 1 assistant teacher. The School provides multiple mega R.C.C. buildings on a plot of land of 10 acres for class rooms, Library, Laboratories, Staff rooms and Office rooms. All our class rooms will be centrally air cooled well equipped with CC TV Camera to provide an ideal and comfortable environment for the students to be nurtured. We have adopted an entirely different concept of schooling. It will be one of its own kinds. In order to facilitate working parents in such a challenging time we have specially devise day boarding cum day care. The students don't have to carry heavy bags every day to school, on the other hand mother's burden of planning and preparation of meals for the children will be trifling. They will be served freshly prepared meals in hygienic conditions under strict supervision of the authorities in the school itself. The child learns to eat and relish food with their peer group. We emphasize not only on the academic learning but also on holistic development of the students. Our most passionate mission is to bring quality education to every child even in the remotest corner. We create spaces where children are encouraged to develop aesthetically, mentally, physically, socially, emotionally and spiritually. We regard school as the center from where waves of positive social change ripple through the entire society.

*From the Director 's Desk.....✍*

**Dear Parents,**

**Be assured that all our efforts will be used to organize your child's study in a secured framework and offer him/her the optimal educational conditions for personal and academic growth.**

**We are proud to offer high quality education to our little champs. I can wholeheartedly say that there is a rich tradition of achievement. Dedication and care for your children is our USP.**

**Please do not hesitate to contact us if you have any queries. Perhaps the easiest way to get in touch as I always enjoy meeting with parents, so please take the time to drop by in all Parents-Teacher meetings. We believe that the child flourishes more in natural and harmonized environment. Hence we can assure the same for your child.**

**Looking forward,**

## *Principal's Message*

Dear Parents,

I welcome you to the “New Era of Schooling” at St. Mother Teresa City School, with a different concept. We are offering day boarding with a day care facility in a true sense. The school’s highly qualified and caring staff strives to help each student to develop, emotionally, socially, and physically in a positive, safe, and respectful environment. We believe this process not only helps students to succeed, but enables teachers to improve as well. Our educational goal is to make learning so exciting that students will experience the joy of discovering new ideas and edifice new skills. The ultimate objective is to help them to develop a love of learning.

The students at SMTCS are encouraged and supported to achieve their highest potential — academically and personally, and to develop confidence and leadership skills. We pride ourselves on being a uniquely caring and nurturing environment, which enhances every student’s learning experience. Studying in SMTCS will be a lot of fun! We offer well-equipped classrooms and freshly prepared meals in hygienic conditions. We work hard, but we believe it is important to enjoy every aspect of school life, thus encouraging our students to be enthusiastic and developing constant learning attitude.

We look forward for the successful year ahead.

Regards,

Dr. Sangeeta Sinha

## OUR MISSION

Our mission is to provide a high - quality, comprehensive, and significant education. Each student is expected to succeed within the bounds of their abilities and chosen educational goals. Each student will be treated as an individual, given the tools to be a constant learner, and taught to function as a productive member of society.

The vital purpose of the schools is to establish a hard core learning environment, through relevance, and rigors so that they should be able to manage the hindrance of life, recover from the unexpected threats and realize their dreams.

The school embraces the ethics and innovates to address shifts in the global world, and atmosphere that require individuals to grapple with multifarious problems, pursue more fluid and flexible career pathways to collaboratively create changes.

School will be a thriving dynamic and inspiring educational arena that produces self-directed learners and stimulates the upcoming generation to trust in, to invest in, and to avail benefits from education that demonstrates the knowledge, skills, and values required for productive global citizenship.

## OUR AIM

Our aim is to provide a student centric learning; teaching is done basing on the potential of their grasping level. We discard rote-learning methodology of the school curriculum. We believe that students can better learn in the appropriate environment hence the environment has been created especially in the way that they will do entire learning in the school itself.

We do not prefer over burdening the children, laden with heavy bags and lengthy syllabus. Hence “No bag, No Tiffin” will be our mode of operation.

The school will be completely day boarding and five days week so as for the parent's convenience.

The greatest danger  
for most of us is not  
that our aim is too high  
and we miss it, but  
that it is too low  
and we reach it.

-Michelangelo

## OUR CORE VALUES

The institution with ultra modern infrastructure not only promotes high-quality education but tries to alien the kiddoos within our culture and society. They are expected to be humble and an idol of Compassion, Courage, Commitment and the knowledge.

# LEARNING AND TEACHING

1. We have CBSE based developmental and age appropriate curriculum that invites exploration celebrates each important milestone and supports the transition from the sensory motor world of the children to the increasingly social and self-directed world.
2. The methodology is tailored to reach out to the students in a fun and explorative manner so that learning becomes exciting and pleasurable. These activities are planned to promote growth in cognitive, literary, music or arts, logical and social skills and help them to grow into an independent and confident individual.
3. The activities carried out in these sections are age - appropriate and take into account the different learning curves, capabilities and needs of various children. At the same time, the integrated but porous infrastructure enables free mixing between the peer groups.
4. SMTCS tries to take into account of the individual personalities and needs of each child. At the same time, there is also an effort to allow them to grow and explore their possibilities through various combined activities such as swimming, music, dance and art.
5. Teachers also actively engage with the students not only in learning but also while in the dining –hall and onto the play ground. SMTCS has a regular schedule of educational and entertaining field trips and nature walks to nearby places.
6. Each and every activity is being monitored under strict surveillance through CC TV camera

## SPECIAL FEATURES
